

The Best Of Inyokern

When I first moved to Inyokern I loved it when I saw those wonderful things and how it made me feel. To begin it has pretty mountains. The mountains in Inyokern have been here a long time. I believe all the time they were getting prettier and prettier. In addition it's small and cozy. Inyokern is always basically quiet. Except for dirt bikes. But mostly

it's quiet. Another it's peaceful. Sometimes the wind wakes me up in the night. I take naps in the afternoon when it's so very peaceful. Finally it has cool antiques. You'd think it's like the national museum of antiques. You can find everything from civil war flutts to nowadays. I enjoy I may kern very much.
