

What I Like Best About My Town

Inyokern is a very small town and very beautiful. Inyokern has a few people, not a lot. It is the home of many desert animals. I like it because of its location and friendly people.

Second of all, Inyokern is located by the Sierra Nevada Mountains. It's within driving distance of both Las Vegas and the Pacific Ocean. There are a lot of polite people that live here. When I go to the store the people will say, "hi". They are always willing to help me. So this is why Inyokern is beautiful and the people here are polite and friendly.
